

Care plans

Hosting, monitoring, backups, and ongoing edits. Your site stays fast, secure, and online without your input.

What you get

- Managed hosting on a tuned VPS with image CDN -- typical TTFB under 200ms.
- Automated daily off-site backups, 30-day retention, restore on request.
- Uptime monitoring with SMS alerts to us -- we catch outages before you do.
- Security patches and dependency upgrades -- no "your CMS is out of date" surprises.
- Monthly performance + uptime report on the 1st of every month.
- Included edit hours per month -- copy, images, new pages, prices. Same-week turnaround.

Three tiers

- Care -- \$149/mo. Hosting + maintenance + 1 hour of edits/mo.
- Growth -- \$495/mo. Care + 5 hours of dev or SEO work/mo.
- Scale -- \$1,295/mo. Growth + 10 hrs/mo, monthly strategy call, priority on-call.

How it works

1. Sign up -- month-to-month, no annual contract, cancel anytime.
2. We migrate your site to managed hosting (free, 1 business day).
3. Edits via email or Slack. We confirm scope, ship, and report back same-week.
4. Monthly report -- uptime, page speed, edits shipped, anything we noticed proactively.

Why Care matters

Most agencies launch a site and disappear. Six months later, your site is slow and the contact form silently broke. Care plans exist so we're still on the hook for the work.

How to start

Book a 30-minute discovery call at blackhartconsulting.com or email hello@blackhartconsulting.com. We'll scope your project, ballpark a price, and tell you whether we're a fit -- no hard sell.
